Make Travel Easy for Event Attendees

SUITE OF SERVICES

How Can goDCgo Help with Large Events?

goDCgo will be your partner in providing step-by-step solutions for event attendees' most common transportation questions and challenges. We can give you FREE resources and custom materials to accommodate attendee travel needs and host an on-site or virtual training for any staff that would benefit from a better understanding of what is available regarding sustainable transit.

Why are Sustainable Transportation Solutions Important?

Your attendees' event experience begins as soon as they leave their front door. Event planners have an obligation to accommodate attendees' transportation needs and be a one-stop-shop for travel solutions. Providing alternative transit information and resources is a low-cost strategy that can add value to your event, making it more attractive to new or returning attendees. In addition to earning rave reviews, you'll help DC become a greener city by encouraging the use of sustainable travel modes like biking, walking, scooting, and public transit.

Get Started with goDCgo

Schedule a complimentary consultation to determine which sustainable travel solutions would work best for your event. Based on your needs, goDCgo can create custom content and provide location-specific transportation options, amenities, and resources that will enhance the guest travel experience.

Contact us today to get started!

Get Around Guide: We can customize a map with transportation options for getting to/from your event that can be shared and downloaded via email, social media, and your website.

Bulk Passes: Purchase pre-loaded SmarTrip cards and/or 24-hour Capital Bikeshare passes in bulk for a discounted price.

Capital Bikeshare Corrals: We can make arrangements so your attendees are guaranteed an open dock (or bike parking space). Events that provide corral service are promoted on Capital Bikeshare's social media channels reaching nearly 17,000 followers!

Bike Valet: We can coordinate a bike valet service to securely store a large number of bikes. You cover the cost of guaranteed bike parking and provide a FREE service to attendees.

Scooter Parking: We can coordinate dockless scooter parking by setting aside enough space to hold up to 10 scooters, preferably at an entry point of your event.

Transit Brochures: Get FREE transit brochures to distribute on-site such as Metro Pocket Guides, DC Circulator Maps, and DC Bike Maps.

Custom Marketing Materials: Let us do the research and provide you with publish-ready content and materials identifying the bike valet, scooter parking, and signage for pedestrians who are walking to your event.
